## PAGO PAGO

THURSDAY, OCTOBER 20, 1966  
ASO TOFI, OKETOPIA 20, 1966

### TELEPHONE SERVICE INTERRUPTED IN PART OF BAY AREA

Telephone service was disrupted in part of the bay area today when a cable was accidentally broken by a crane that was working in the new Pago Pago Territorial Park.

Telephone service in Fagasa, Pago Pago, Satala, Leloaloe, Aua and Anasosopo -- including the canneries and the Marine Railway -- is still disrupted. The disruption is expected to continue until 9 or 10 a.m. tomorrow. Meanwhile, telephone crews are scheduled to be repairing the cable through tonight.

William Giede, manager of the telephone branch of the Public Works Department, said there is a chance that other phones not immediately connected with the cable break may also be disrupted.

### WATER RATIONING ENDS TODAY

Water rationing ends today, according to Jimmy Lee, manager of Maintenance and Operations. Continuing rains late yesterday and last night alleviated the water shortage and restored normal service to the Bay Area, which had been on water hours.

### THORSGAARD DUE TOMORROW; IBERIA PASSENGER LINER HERE TODAY

The P&O passenger liner Iberia arrived today at 7:45 a.m. and was scheduled to leave Pago Pago Harbor at 4 p.m. to continue to Los Angeles on its world cruise. Several hundred tourists aboard the big British ship enjoyed a day of sight-seeing and shopping on Tutuila.

Tomorrow morning about 10 o'clock the Thorsgaard is scheduled to drop anchor here. It is southbound, bringing freight from West Coast ports.

The Tofua was in port yesterday morning, bringing food from New Zealand on its regular run of the islands. It departed in the early afternoon.

The German naval training vessel Donau left Tuesday after putting into port for repairs to its damaged port propeller shaft. It was bound for Pearl Harbor where it will make an informal call from Oct. 26 to 31.

Next week the Sierra is scheduled to steam into port on Wednesday morning, with mail and freight from the States.

### NEW LIBRARY HOURS ANNOUNCED

The Daily Bulletin wishes to correct a previous announcement regarding hours at Feleti Memorial Library. The library will continue to serve students and the public five days a week.

On Mondays, Wednesdays and Fridays it will be open from 7:30 a.m. until 6 p.m. On Tuesdays and Thursdays it will be open from 7:30 a.m. until 4 p.m.

Head Librarian James Smith notes that the new schedule extends library hours, rather than curtailing them.

SCHOLASTIC APTITUDE TEST TO BE GIVEN THIS FRIDAY

Director of Education John Harold announced today that the Preliminary Scholastic Aptitude Test will be administered at the high schools and at Feleti Teacher Training School tomorrow at 12:30 p.m.

He said that the two-hour test is a screening device to measure aptitude for college academic success. It is used by more than 800 stateside colleges.

Locally the test is utilized as one factor in screening students who will attend stateside colleges under Government of American Samoa loans. Other factors taken into consideration, in addition to test scores, are financial need, high school grades and character.

Since test results are required by most colleges, the director urged any student planning to attend college to take the test regardless of whether or not a loan is needed.

Eligible to take the test are all 11<sup>th</sup> and 12<sup>th</sup> grade students who have a B average, or higher, and all Feleti students.

Other post-graduates who plan to attend college and who had a B average, or better may also take the test tomorrow if they have registered with Mrs. Sa'eua Scanlan in the Education Office.

TWO YOUNG SAMOANS ARE ATTENDING EAST-WEST CENTER IN HAWAII

Two young American Samoans are currently scholarship students at the East-West Center in Hawaii, America's unique experiment in education and international understanding.

They are Enosa M. Pili of Pago Pago and Sivia F. Sunia of Fatumafuti. Both are studying for bachelor's degrees in arts and sciences.

Since its founding in 1960 by the United States Congress, the East-West Center has carried on several programs aimed at building understanding among the peoples of Asia, the Pacific and the U.S.

The Center's scholarship program involves more than 600 students from 31 countries. They live in Center residences and attend classes at the University of Hawaii.

The young students are studying subjects that will enable them to return to their native lands, armed with modern knowledge and techniques in many fields including teaching, science, mathematics, languages, business and others.

The Center also offers research grants to senior specialists, technical grants to participants and fellowships for doctoral-level work.

Represented at the Center are Afghanistan, Australia, Burma, Ceylon, Cambodia, the Republic of China, the Cook Islands, Fiji, Guam, Hong Kong, India, Indonesia, Japan, Korea, Laos, Malaysia, Nepal, New Guinea, New Zealand, Okinawa, Pakistan, the Philippines, American and Western Samoa, Singapore, Tahiti, Thailand, the Trust Territory of the Pacific, Tonga, Viet Nam and the United States.

Young people who are interested in applying for a scholarship grant that would enable them to attend the East-West Center may obtain the necessary forms from the Department of Education office here.

The Center has announced that for its 1967 selections it hopes to accommodate as many as four students from American Samoa.

Candidates should be high school graduates with outstanding past academic records and a high level of competence in the English language.
