SUPREME COURT STRIKES OUT CONVICTION

WASHINGTON, (UPI) - The Supreme Court has struck down the conviction of a top aide of teamsters President James Hoffa, Charles "Chucky" O'Brien of Detroit. The high court took the action on grounds the government was guilty of eavesdropping.

O'Brien had been convicted on charges of unlawfully removing merchandise from a bonded warehouse.

The Justice Department conceded that the FBI installed a microphone in a commercial establishment owned by a friend of O'Brien.

CAMPAIGNS SEEN FUTILE

State legislatures are waging campaigns to call conventions to overturn the Supreme Court's "one-man, one-vote" ruling that both chambers of a state legislature must be apportioned on a population basis. But most observers feel there is little chance that Congress will go along with the idea. Many congressmen fear that such a convention would open the flood gates to unlimited constitutional amendments.

AUTHOR MAKES NEW CHARGES

WILLIAM MANCHESTER, (UPI) - Author of "Death of a President," has made new charges in the controversy surrounding his book about the assassination of President Kennedy.

One charge is that Mrs. Jacqueline Kennedy incited Senator Robert Kennedy -- into a "tiger-like" rage to the point where he demanded the project be abandoned. Manchester also accused Mrs. Kennedy of attempting "to suppress vital facts."

MILK WAR INTENSIFIES IN U.S.

Dairy trucks are moving milk to market on the mainland under armed convoy. This is being done despite a National Farmers Organization appeal to farmers to create a milk shortage in order to push milk prices up by two cents a quart. Incidents of vandalism and destruction were reported yesterday in parts of the affected 25-state area from Idaho to New York.

Four milk trucks were shot at near Flint, and Capac, Michigan. Many of the area farmers are reportedly arming themselves with shotguns to protect their property. In Wisconsin -- an NFO member's milk house was dynamited. Madison, Wisconsin police received a hoax postcard saying the milk stored at local dairies had been poisoned.

NFO President Oren Staley expressed confidence that his groups militant efforts will pay off in milk shortages and higher prices this week.
